

# XTREME POWER CONVERSION P91-2kLi // Vertiv Liebert GXT5Li-2000LVRT2UXL COMPARISON

The P91-2kLi is a high-performance, online double-conversion 120V UPS that safeguards critical data and equipment. With advanced Lithium Iron Phosphate (LFP) batteries, it offers superior efficiency, longevity, and safety. Available in 1.5 kVA to 3 kVA capacities, the P91 Li ensures reliable power backup for mission-critical applications.

## 2kVA UPS COMPARISON

|                       | Xtreme Power P91-2kLi<br>Online Lithium-ion UPS                      | Vertiv Liebert GXT-<br>5Li-2000 Online UPS                           | ADVANTAGES   |
|-----------------------|--|--|--|
| Battery Technology    | Lithium Iron Phosphate (LFP) with integral Battery Management System | Lithium Iron Phosphate (LFP) with integral Battery Management System | Both manufacturers offer LFP batteries that last twice as long as lead-acid batteries while providing superior temperature tolerance, faster recharging, and more discharge cycles.    |
| Capacity              | 2000VA/1800W   | 2000VA/1800W   | Both Xtreme Power P91-2kLi and Vertiv provide the same capacity.   |
| Battery Recharge Time | 1.5 hours to 90%   | 2 hours to 90%   | Xtreme Power Charge delivers up to 8 Amps of recharge current, ensuring faster recovery for the next outage compared to the slower-charging Vertiv system.                             |
| Battery Runtimes      | 14 min at full Load  | 10.5 min full load   | Xtreme Power P91-2kLi provides additional battery runtime.   |
| TAA Compliant         | TAA Compliant  | No   | TAA compliance ensures a product qualifies for government contracts by meeting U.S. trade requirements. It boosts credibility, market access, and security, giving a competitive edge. |
| Warranty              | 6 years  | 5 years  | Xtreme Power's 6-year UPS warranty provides an extra year of protection, reducing costs, increasing reliability, and offering greater long-term value over Vertiv's 5-year warranty.   |
