E91

10kW-40kW
ONLINE TOWER UPS
208/120VAC Three-phase

The cost-effective E91 UPS delivers reliable three-phase online double-conversion power for edge facilities, small data centers, network closets, and industrial applications.
It features an internal maintenance bypass and optional power distribution, with external battery packs available for extended runtimes.

Vision Revo TP Series

20.5kWh- 51.2kWh
Lithium-Ion Modular Battery Cabinet
+240/-240V DC Applications

The Vision REVO TP Series LFP Battery delivers exceptional efficiency and dependability with one of the industry's most compact footprints.
Featuring automatic cell balancing for extended life, improved performance, and enhanced safety, it is UL1973 certified and UL9540A tested. Backed by a 5-year warranty, it is ideal for X90 applications from 50kW to 700kW.

X90-1S & X90-2S

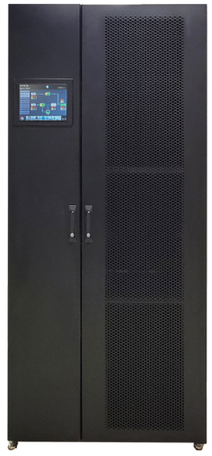
50kW-70kW or 50kW-140kW
Modular Online UPS 480VAC 3W Three-phase

The X90-1S and X90-2S are scalable, modular, online double-conversion UPS systems designed to safeguard critical data and equipment from power disruptions while delivering clean, reliable, network-grade power. The fully integrated UPS systems includes battery modules and bypass in a single front access cabinet, providing the most compact footprint and simplifying installation.

X90-5S & X90-10S

50kW-350kW or 50kW-700kW
Modular Online UPS 480VAC 3W Three-phase

The X90-5S and X90-10S are scalable modular online double conversion UPS that protects critical data and equipment from power problems while supplying clean and reliable network grade power.
The optional 65kAIC maintenance bypass comes in a slim, matching cabinet, offering the most compact footprint while minimizing installation costs. Optional Vision LFP or Lead Acid battery options.



POWER PROTECTION FOR THREE-PHASE APPLICATIONS

Established in 2006, Xtreme Power manufactures UPS, and power distribution units for a global network of OEMs and distributors

XTREME POWER CONVERSION

THREE-PHASE CRITICAL POWER SOLUTIONS

XTREME Power Conversion®

AI90

80kW
415/240, 400/230, 380/220VAC
Three-phase

The AI90 80kW UPS is a compact solution for power-dense AI server racks. Its 18U design maximizes space while delivering reliable power protection.

Featuring modular lead-acid batteries, integrated bypass, and output distribution, it ensures seamless operation and backup power for critical AI applications.

AI90-HUC

80kW
415/240, 400/230, 380/220VAC
Three-phase

Xtreme Power AI90-HUV 80kW UPS – the ultimate innovation in power management for high-performance AI server racks. It's the most compact UPS in the industry featuring advanced Hybrid Ultracapacitors (HUC) for 15 years of lifespan and 50,000 full discharge cycles, delivering unmatched reliability and power density.

M90C-2S & M90C-6S

5kW-8kW or 5kW-24kW
Online Rack or Tower UPS
208/120VAC Three-phase

The M90C is a modular, scalable three-phase UPS designed to adapt to your capacity, runtime, and output distribution needs. The M90C-2S delivers 5kW or 8kW in just 6U of rack space, integrating maintenance bypass and output distribution for a compact and efficient power solution.

M90CI-2S & M90CI-6S

10kW or 10kW-60kW
Online Rack or Tower UPS
415/240, 400/230, 380/220VAC Three-phase

The M90Ci is a modular, scalable three-phase UPS designed to flexibly adapt to your capacity and runtime requirements. The M90Ci-2S delivers 10kW in just 6U of rack space, incorporating maintenance bypass and output distribution for a compact, high-efficiency power solution.

Li90 Lithium-Ion

10kW-30kW
Online Tower UPS
208/120VAC Three-phase

The Li90 UPS offers high power density, a smaller footprint, and extended battery life with Lithium Iron Phosphate (LFP) technology.

This online double-conversion UPS ensures reliable power for critical equipment, featuring hot-swappable batteries, an internal maintenance bypass, and longer cycle life for superior efficiency.

M90LU & M90U

15kW-60kW
Modular Online UPS
208/120VAC Three-phase

The M90U is a cost-effective, modular online double-conversion UPS with integrated batteries and maintenance bypass. For extended runtimes, the M90LU pairs with the modular M90-BC battery cabinet for reliable backup power.

M90U-80

15kW-80kW
Modular Online UPS
208/120VAC Three-phase

The M90U-80 is a scalable, modular UPS for high density computing environments. Expanded capacity, runtime by adding power or battery modules. The M90U-80 includes UPS, batteries, and maintenance bypass in one compact enclosure.

M90U-140

15kW-140kW N+1
Modular Online UPS
208/120VAC Three-phase

The M90U-140 is a scalable, modular UPS for high-density computing. Expand capacity, runtime, or redundancy (N+1) with additional power or battery modules.

It includes an internal maintenance bypass and integrates with the M90-BC battery cabinet for a flexible power solution
