

## XTREME POWER CONVERSION **M90U-80** // EATON **BladeUPS** COMPARISON

The Xtreme Power M90U-80 and Eaton BladeUPS are modular UPS systems for 208/120 V three-phase applications. BladeUPS (12–60 kVA) is discontinued and limited to 10 kW per module in online mode, while the M90U-80 delivers full online double-conversion output with larger modules and active lifecycle support to 80 kW.

### 208/120 V Modular UPS Comparison

Feature	Xtreme Power M90U-80	Eaton BladeUPS	M90U Advantage
Lifecycle	Active	Discontinued	Current platform
Capacity & N+1	15–80 kW; 60 kW N+1	12–60 kW; 60 kW N+1	Higher maximum
Architecture & Online	Online; full output	Standby; 10 kW/module online	Full load in online
Module Size	15 or 20 kW	12 kW standby / 10 kW online	Larger modules
Maintenance Bypass	Internal std	External opt (loses slot)	No capacity loss
Runtime (full load)	6 min @ 80 kW	4.7 min @ 60 kW	Longer
Cabinet Size	23.6W × 43.3D × 79.1H in	24W × 42D × 81H in	Similar
Warranty	2 yr	Legacy	Current
TAA	Current models	Legacy units	Active
