

XTREME POWER CONVERSION P91-1.5kLi // EATON 9PX1500RT-L COMPARISON

The P91-1.5kLi is a high-performance, online double-conversion 120V UPS that safeguards critical data and equipment. With advanced Lithium Iron Phosphate (LFP) batteries, it offers superior efficiency, longevity, and safety. Available in 1.5 kVA to 3 kVA capacities, the P91 Li ensures reliable power backup for mission-critical applications.

1.5 KVA UPS COMPARISON

| | Xtreme Power P91-1.5kLi Online Lithium-ion UPS | Eaton 9PX1500RT-L Online Lithium UPS | ADVANTAGES |
|-----------------------|--|--|--|
| Battery Technology | Lithium Iron Phosphate (LFP) with integral Battery Management System | Lithium Iron Phosphate (LFP) with integral Battery Management System | Both manufacturers offer LFP batteries that last twice as long as lead-acid batteries while providing superior temperature tolerance, faster recharging, and more discharge cycles. |
| Capacity | 1500VA/1350W | 1500VA/1350W | Both Xtreme Power P91-1.5kLi and Eaton provide the same output capacity. |
| Battery Recharge Time | 1.5 hours to 90% | 3 hours to 90% | The Xtreme Power UPS recharges in half the time of Eaton, ensuring faster recovery, reduced downtime, and greater reliability. This rapid recharge is crucial for businesses and data centers, minimizing the risk of power disruptions. |
| Battery Runtimes | 11 min at full load | 11 min at full load | The Xtreme Power and Eaton systems provide the same battery runtime. |
| TAA Compliant | TAA Compliant | No | TAA compliance ensures a product qualifies for government contracts by meeting U.S. trade requirements. It boosts credibility, market access, and security, giving a competitive edge. |
| Warranty | 6 years | 5 years | Xtreme Power's 6-year UPS warranty provides an extra year of protection, reducing costs, increasing reliability, and offering greater long-term value over Eaton's 5-year warranty. |
