XTREME POWER CONVERSION **V70-1500 UPS** // Eaton Tripp Lite **SMART1500LCDXL** COMPARISON

Both systems are shallow-depth, 1500 VA line-interactive UPS platforms designed to protect entry-level servers, network closets, retail POS, and VoIP equipment. Core performance is broadly comparable; however, the V70-1500 differentiates itself with true wall-mount support, longer power cord length, simpler ownership, and consistent TAA positioning for regulated installations
